## Summary

I am Ahosan Kabir. A MERN stack developer. I have also experience in the teaching profession. almost 3 years I include myself in the teaching profession besides I learn new skills so that I can go with this updated world. my experience is always learning the things you want to go forward for yourself and help others.

Things I kept in my mind -

Goals should cover every aspect of life, whether physical, mental, career, or fun.

Goals should be measurable and perfectly challenging

Should not be a dream goal instead make it actionable.
